Narrative

Palos Verdes Estates Police Department
Investigation Narrative

On 7-12-13, Victim was with his family inside his residence at PV Drive North. At approximately 2130 hours, his son's caregiver left their residence to go home. She did not hear or see anything unusual. At approximately 2215 hours, V-1 heard water running so he went outside to investigate. V- saw that someone turned on the hose bib in the front of his residence. Due to high water pressure, the bib made a very loud noise and was discharging a large amount of water. V- estimates the hose bib had been on for approximately 15 minutes due to the amount of water on the ground. The hose bib could not have been accidentally turned on, it must be manually turned on by hand.

V- believes that this may have been a tactic to lure him from his residence of possibly a test of his response.

V- has had a recent encounter with who was taking his picture in an over obvious manner during a welcoming dinner for the new City Manager. has been unhappy with city officials, code enforcement and the Police Department for not responding to his demands on various topics.

and created a website that shows disdain for city officials due to their decisions regarding a sale of parkland at Via Panorama.

V- only mentioned the above individuals as those who he has encountered recently where conflict was present.

No physical evidence was obtained and there was no damage to the property. This report is for documentational purposes.
